PROFESSIONAL SUMMARY

Front-End Developer with hands-on experience building responsive, high-performance web applications using React.js and Next.js. Skilled in REST API integration, form validation, data visualization, and modern UI/UX practices. Provided production applications for freelance clients and finished structured full-stack training with the Egyptian Armed Forces Digilians Program. Focused on clean code, scalable component architecture, and continuous learning.

TECHNICAL SKILLS

- **Languages & Markup:** HTML5, CSS3, JavaScript (ES6+)
- **Frameworks & Libraries:** React.js, Next.js, Redux
- **Styling:** Tailwind CSS, Bootstrap, SCSS, Material UI
- **Tools & APIs:** REST APIs, Axios, Formik, Yup, Zod, React Hook Form, Git, GitHub
- **State Management:** Redux, Context API, React Hooks
- **UI/UX & Animation:** Framer Motion, LottieFiles, Nivo Charts, FullCalendar
- **Back-End Exposure:** Node.js, Express.js, PostgreSQL, Prisma ORM

PROFESSIONAL EXPERIENCE

Full Stack Developer Trainee — 2026

Digilians Program, Egyptian Armed Forces, Egyptian Military Academy

- Completed a 5-month intensive full-stack web development training program covering front-end and back-end development
- Applied React.js, Next.js, Express.js, and PostgreSQL to build and deploy the PharAlert graduation project
- Collaborated with fellow trainees to design, build, and deliver the graduation project within the 5-month program timeline

Front-End Developer Trainee — 2025 (1 month)

Baianat Training Program

- Fulfilled a 1-month intensive training program on building interactive, high-performance web applications using modern front-end frameworks
- Practiced component-based architecture and state management through daily hands-on exercises across the 1-month program

Freelance Front-End Developer — 2024 - Present

Self-Employed, Remote

- Delivered 4-6 client projects on schedule using HTML, CSS, JavaScript, and React.js, maintaining clean, maintainable code
- Integrated REST APIs and implemented form validation with Formik and Yup across all 4-6 projects, reducing invalid form submissions
- Managed end-to-end client communication and revisions across all 4-6 projects, maintaining a consistent on-time record

PROJECTS

PharAlert - Graduation Project (2026) | *React.js, Tailwind CSS, Express.js, PostgreSQL, Prisma*

- Built a full-stack pharmacy and medication alert platform as the Digilians program graduation project
- Developed a responsive front-end with React.js and Tailwind CSS for a modern, user-friendly interface

- Built the back-end with Express.js, PostgreSQL, and Prisma ORM for data modeling and management
- Designed and connected REST APIs linking the front-end and back-end seamlessly

Personal Portfolio | *React.js, Framer Motion, LottieFiles, CSS3*

- Created a responsive portfolio site with smooth animations using Framer Motion
- Incorporated LottieFiles for lightweight animated illustrations and Formspree for contact form handling
- Optimized performance and load time for fast, smooth page loading

Live: my-portfolio-beta-henna-60.vercel.app | GitHub: github.com/IbrahimAlshabrawishy/my_portfolio

Admin Dashboard | *React.js, Material UI, Nivo Charts, FullCalendar*

- Developed a responsive admin dashboard with reusable components for scalability and maintainability
- Implemented data visualization using Nivo Charts (bar, line, pie) and FullCalendar for event scheduling
- Designed a consistent UI optimized across desktop, tablet, and mobile screen sizes

Live: admin-dashboard-e30e7.web.app | GitHub: github.com/IbrahimAl-shabrawishy/Admin-Dashboard

Quran Platform | *React.js, Next.js, CSS3*

- Launched a web platform for exploring and reading the Quran with a clean, accessible interface
- Focused on responsive design and smooth navigation across surahs and pages

Live: quran-platform-ten.vercel.app | GitHub: github.com/IbrahimAl-shabrawishy/Quran-Platform

Ahd Al-Oula Trading Establishment | *React.js, TypeScript*

- Built a corporate website with React.js and TypeScript for Ahd Al-Oula Trading Establishment, a general contracting and finishing works company based in Buraidah, Qassim, Saudi Arabia
- Presented the company's services, portfolio, and brand identity with a clean, professional, and responsive interface
- Used TypeScript to ensure type-safe, maintainable component architecture across the project
